

Cardiovascular Health in Turner Syndrome Bibliography (contains EndNote tags*)

This document contains 1270 citations that were reviewed by the international Turner syndrome CV Health Task Force to write the American Heart Association Scientific Statement “Cardiovascular Health in Turner Syndrome” *Circulation: Genomic and Precision Medicine*. 2018;11:e000048.

*Note that the EndNote application can be used to export this list of citations to the EndNote reference manager and provide you with an EndNote library. To accomplish this: From this document, go to the EndNote tab and select “Export Traveling Library” from the “Tools” menu.

1. Increased maternal cardiovascular mortality associated with pregnancy in women with Turner syndrome. *Fertil Steril*. 2005;83:1074-5.
2. Increased maternal cardiovascular mortality associated with pregnancy in women with Turner syndrome. *Fertil Steril*. 2006;86:S127-8.
3. Increased maternal cardiovascular mortality associated with pregnancy in women with Turner syndrome. *Fertility and Sterility*. 2008;90:S185-S186.
4. Summaries for patients. Adding electrocardiography to medical history and physical examination for evaluation before sports participation in college athletes. *Annals of internal medicine*. 2010;152:l13.
5. Summaries for patients. Cost-effectiveness of different types of evaluations before sports participation in young athletes. *Annals of internal medicine*. 2010;152:l40.
6. Increased maternal cardiovascular mortality associated with pregnancy in women with Turner syndrome. *Fertil Steril*. 2012;97:282-4.
